PANDA FINANCE

Welcome to PANDA WORLD

WHITEPAPER

V1

It's not just a MEME.

The Panda Finance project aims to introduce individuals to the Arbitrum ecosystem through its fun and friendly mascots!

The project is community owned and managed, with strict limits on individual holdings to promote decentralization and widespread adoption. Our holders will have numerous benefits, and tools.

By leveraging the power of meme creation tools for investors and creating community-driven content, Panda Finance aims to increase awareness and understanding of the Arbitrum universe, serving as a guide and companion for all investors.

Whats it is PANDA WORLD?

In addition to a meme that helps to introduce new investors in a fun way to the arbitration ecosystem, panda finance goes further.
We want to help raise awareness of tools in the crypto world, and that's why Panda World was created.

A fun world where you learn and use tools like stake, nfts, and swap in a fun way, helping with the adoption of systems by facilitating access.

Initially Panda world will have 3 sectors.

PANDA
FARMS

PANDA
SWAP

PANDA
NFT

PANDA
FARMS

Pandas Farms are a fun way to introduce investors to the concept of Stake.

Panda Farm will have 50 lands divided into 3 categories:
Small Farm, Medium Farm and Big Farm

Each category will have the capacity to produce a certain amount of panda tokens, but for that you need to leave your $PANDA tokens working on them.
When putting your tokens to work, they will not be able to leave before the end of the minimum cycle, which is different in each type of farm.

PANDA
SWAP

he panda Swap is a fun way to exchange tokens.

At panda swap you can exchange tokens, buy and sell various assets, in addition to a pleasant surprise

In panda swap you will have a very fun swap with an incentive of 0.5% of panda tokens for purchase transactions of panda tokens.
PANDA
## N F T

A lovely collection for you to collect and trade.

In addition to being a fun figure, you can use it to access the Bamboo community, a community that can only be accessed by holders of the project's NFTs.

Another utility is access to Big Farms, to use these farms and receive the best stakes you will need to be a Panda NFT holder
